## Our Story

Our love affair with Le Moulin started on Valentine's Day 2020, our wedding anniversary. Sitting by the fire at our home in Ireland, listening to the roaring wind and beating rain outside, our dreams of sunnier climes led us to a decision to look for a property in France. We have always loved the French way of life, which is rooted in simple timeless pleasures – the fabulous food, the fine wine, the countryside and the culture. We booked a flight to Toulouse and upon arrival at Le Moulin, it truly was 'love at first sight'. Just a few weeks later, we became the proud new owners of Le Moulin.

## Our Background

Having sold our hotel in Ireland (Harvey's Point) in 2019, following thirty years of happy hotel-keeping, we were looking for a small property in France where we could continue our passion for hospitality and tourism. Marc is originally from Switzerland and I come from Donegal, which is in the North West of Ireland. Our home is located on the shores of Lough Eske at the foot of the Blue Stack mountains. Our darling children, Carl, James and Christina join us at various stages of our journey and together, we are looking forward to creating memories at Le Moulin.

## Our Vision & Values

It is our vision to offer a unique and private holiday experience for guests who enjoy luxury combined with homely charm – traditional French décor blended with modern conveniences to five star standard. We hope to build Le Moulin brand so that it is synonymous with quality and exceptional customer service.

We treasure our team and they understand the importance of their role in making Le Moulin such a special place to visit. Together, we place great focus on attention to detail for every step of the guest journey. We like to anticipate guests' needs and go the extra mile with a smile.

# About Le Moulin sur Célé

## About Le Moulin sur Célé

Le Moulin sits proudly on the banks of the river Célé in its own valley known locally as 'La Vallée du Paradis'. Surrounding the property is the dramatic Natural Park of Causses du Quercy, an area covering 185,000 hectares and boasting some of the most beautiful countryside in all of Europe.

The Célé valley evokes a feeling of wild mystery; castles on the cliffs and ancient landmarks waiting to be discovered only minutes from Le Moulin. The gentle flow of the Célé river, running through the eastern end of the property, has provided a sheltered, bountiful environment teeming with wildlife for thousands of years. Our early neighbours even had the time to paint magnificent limestone cave images at Pech Merle, dating back to 25,000 BC and it is only a 30 minute drive down the Célé valley.

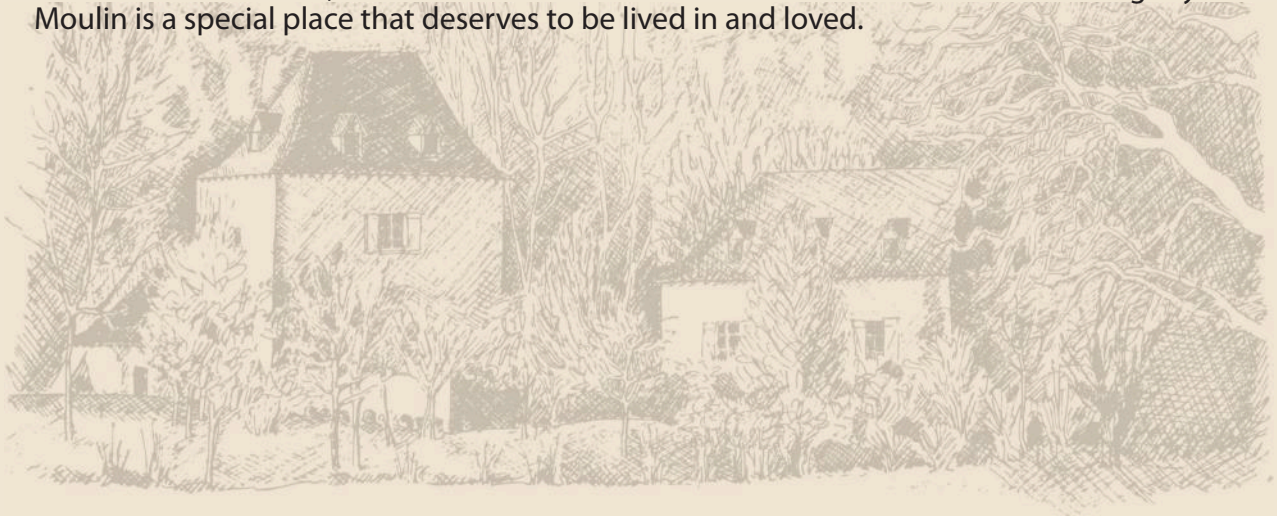
Le Moulin is nestled in 15 acres of mature gardens and meadowland, encompassed by high limestone cliffs giving it a surreal quality of 'other worldliness'. One feels protected, nurtured and rooted by these cliffs in a way which can only be experienced first-hand. Beauty, nature, relaxation, fun, fine food and wine are in abundance during your stay at Le Moulin.

## History of Le Moulin

The old mill was built in 1760. A local family from Saint-Sulpice owned the property for many years and the tradition of milling grain was handed down over the generations. The main house was built in 1880 and it's a classic example of traditional, rural Lot heritage.

When the mill was no longer in use, an English lady, Madame Stopford-Sackville bought the property and she dedicated her time and money to upgrading the property with great taste. She re-designed the gardens to include a large selection of roses. Wine was made at Le Moulin until the last harvest in 2007. Madame Stopford-Sackville welcomed many guests to Le Moulin when she opened it as a luxury holiday villa. The property changed hands in 2015 when it was bought by Charles Matheson and Joshua Roberts from the UK and USA respectively.

Then in 2020, the Gysling family became the proud new owners of Le Moulin. Following extensive renovations, it has been our honour to restore Le Moulin to its former glory. Le Moulin is a special place that deserves to be lived in and loved.



# Le Moulin - Facilities

## Essential Information

### Wifi
Wifi is available in all areas of the Miller's House, the Tower and throughout the grounds. Open connection - no need for password.

### Kitchen Equipment
You'll find amongst other things, a fridge and separate freezer, dishwasher, microwave, gas fired cook top, double oven, wine cooler, high quality cookwares, local pottery etc. Please do not hesitate to contact Marc should you have any difficulty with using the kitchen equipment. Happy cooking :)

### Utility Room
For your convenience: washing machine, dryer, ice machine, fridge-freezer, pool towels, outdoor cushions, table cloths and bottle-bin.

### Household Waste
May we kindly ask that you segregate all household waste. See details in our Environmental Policy section. Additional bin capacity is available in the large bins underneath the terrace.

### Air Conditioning
Cooling and heating air conditioning system is installed throughout the building. To turn on / off, simply press the button at the top right side of the thermostat. There are arrows below to adjust temperature. Ceiling fan and towel heaters are in every room.

### Windows
Please be sure to secure opened windows with hooks provided, to protect against sudden gusts of wind. The insects will be attracted to the light so do switch off your lights in the bedrooms and close the windows when you leave the house.

### Bed Linen / Towels
We have sourced the highest quality linen for our discerning guests. Please be very careful with sun products etc. These can cause unremovable stains on sheets and duvet covers. Additional towels are available on request. Bedroom towels are not for outdoor use. Blue and white pool towels are located in the utility room.

### Privacy
The grounds and area in-front of the old mill are for your private use. Canoeists may pass by from time to time, particularly during high season. They do not have permission to stop and picnic on the island belonging to Le Moulin. In the event that they attempt to do so, it's easy to advise them of the picnic / bar facility downstream at Saint-Sulpice Camping.

Patrick, our gardener and groundsman plus members of the Gysling family will visit the pool daily to clean and maintain it to a high standard. We recommend covering the pool at night to retain the temperature.  Plants on the terrace will be watered daily in hot weather.

The area where the vines are located is not exclusively for use by guests of Le Moulin. It is a working vineyard and staff will need to access it at anytime. Please note that the road passing through Le Moulin is a public road.

# Le Moulin - Facilities

## Outdoor Activities

### BBQ
There is a gas barbecue on the patio outside the kitchen.

### Garden Games Room
All our outdoor games equipment can be found in the Garden Games Room which is located down the steps from the dining room.

### Swimming Pool
There are two self-locking gates that must be kept closed at all times.
Diving and jumping into the pool are not permitted.
Please do not bring glassware to the pool. Quality alternatives are available.
Please use designated blue and white towels for pool / river / sunbathing use. Thank you.

### Sun Umbrellas
Sun umbrellas must be closed when not at home and if wind gets up. The terrace is particularly vulnerable in a strong wind and it is necessary to lay them flat on the ground.
The sun-bed cushions are resistant to light rain but in a deluge should be stored away under the arch by the pool. All other cushions must be put inside at night.

### Sun Loungers / Deck Chairs
Sun lounger and deck chair cushions are there for your comfort. Please return them to their dedicated area during rainfall and at night.

### Table Tennis
Bats and balls are in the garden games room. The ping pong table is on the river bank for riverside championships. Please ensure that the bats are not left out on the table in the sun as they warp and break very quickly. Please return them to the games room when the game is over.

### Tennis / Croquet
All equipment is in the garden games room.

### Archery
The bow, arrows and targets are all in the garden games room.
You must ensure that Patrick sets this up for you and shows you how to use it.
He needs to string the bow and set up the target.
**Safety is paramount**.
It's a proper adult set, so we would not recommend it for anyone under 14.
No one should be in front of, or beside the archer.
Spectators must be 3 metres behind.
Please ensure you pick up the arrows after every 6 shots as otherwise they get lost easily.

**Use of this equipment is entirely at your own risk.**
If you are not confident using it, please refrain from doing so.

# Le Moulin - Facilities

## Gardens & Vineyard

Patrick, our team member would be delighted to give a tour of the garden and vineyard during your stay.

## Wildlife

Of particular interest are the red squirrels. They are all over the area and can usually be found in the garden without too much searching. There are splendid butterflies and wood peckers swooping around the garden who have made Le Moulin their home.
The region is also well known for its wild boar, which are regularly down by the river bank snuffling for goodies, the evidence of their food gathering is easily spotted all over the grounds.

Please be aware that as Le Moulin is located in the countryside, it's normal for insects etc to find their way into the house. Despite our best efforts, spider webs can appear from time to time. We recommend keeping food covered to avoid attracting flies and wasps. It's advisable to keep windows and doors closed, especially in the evenings.

## Meet & Greet

Every Wednesday from 5pm to 6pm, the Gysling family is delighted to host a 'Meet & Greet' Apéro in the vineyard to which you are cordially invited. We look forward to sharing some fine local wine with you.

# Places to Visit

## Cajarc - 15km
Cajarc is the local town for supplies. It has a beautiful square which has a very good market every Saturday. The square has a number of high quality boulangeries, charcuteries, wine merchants, delicatessens, a pharmacy, a garage, tabac, a couple of boutique style shops, supermarket and a variety of restaurants. Behind the square is the old town which is extraordinarily beautiful, old and ramshackle. This is certainly worth a wander around and if you go a little farther you hit the river Lot on the other side of the town which is wider and slower – it's a great stop off for a swim and ice cream after shopping in the square.

## Marcilhac-sur-Célé - 5km
Our local village of Marcilhac is located in a picturesque setting on banks of the river Célé and is on the camino to Santiago de Compostela. It has many historic buildings including the ruins of the 9th-century Abbey of St Peter. The Tuesday evening market in the summer months is well worth visiting.

## Figeac - 25km
Nestling in the Lot and the Célé valleys, the medieval town of Figeac is steeped in history. We recommend a visit to Musée Champollion and Place des Ecritures. Figeac is also a great place to shop or dine.

## Saint-Cirq-Lapopie - 26km
Arguably France's most beautiful village, Saint-Cirq-Lapopie appears to cascade down a steep hill into the river Lot. The half hour drive from Le Moulin along twisty roads is almost as beautiful as the town itself which is a world renowned tourist hot spot.

## Pech Merle Cave Paintings - 23km
It is one of the few prehistoric cave painting sites in France that remains open to the general public. Extending for more than a mile from the entrance are caverns, the walls of which are painted with dramatic murals dating from the Gravettian culture (some 25,000 years BC).

## Rocamadour - 47km
Also known as the 'Vertical Village', overlooking the Alzou canyon, the medieval village of Rocamadour is a marvelous balancing act. Amongst all the villages to visit in the Dordogne Valley, Rocamadour is said to be a place where miracles happen! With its forget-me-not cliff-side setting, it's well worth a visit. A pleasant 50 minute drive from Le Moulin. Don't forget to try AOC Rocamadour pure goat cheese. It's devine!

## Cahors - 48km
Capital of the Lot department, the ancient city of Cahors is within an hour's drive – its 14th century fortified bridge is of particular interest. The region around Cahors is widely known for its Malbec wine, once rivaling the finest Bordeaux in terms of quality and price. There is a market hall open most days and it's well worth a visit.
